CAREER OBJECTIVE

My name is Truong Van Hao. I graduated with a major in Software Technology Engineering, from the Faculty of Information Technology, FPT. I have been working as a web developer for 8 years and particularly experiencing the Ruby on Rails framework for 7 years. For my career goal, I'm trying my best to become a Bridge Software Engineer who possesses both technical experience and language ability to facilitate the collaboration between Japanese customers and Vietnamese developers.

Now I am seeking a new job related to my interested field and a new working chance.

EDUCATION

2016 - 2018

FPT POLYTECHNIC

Major: Information Technology

GPA: 3.2

CERTIFICATIONS

08/2024
